Password

You can protect the access to this page by ticking the case below. You need to set a password in the menu "Website" - "Website Properties".

This page is protected by a password

NOTE: This protection is not really efficient against persons having Web development knowledges. A "server side" protection is safer (ask your hosting provider for more information).

Google Fonts:

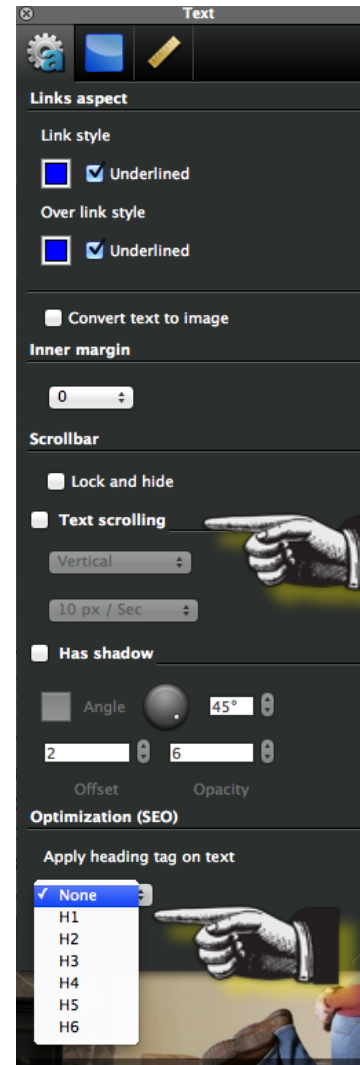

Download & Install then simply select the font from the font menu. Then, let EasyWeb do the coding.

Example:

Someone using a couple of fonts on a page:

Our Awesome Adventure

We are one of the luckiest classes on Vancouver Island! We get three weeks of sailing lessons where we get to sail in our own boats in teams of about 4 people. Our first week was learning lots of things we need to know before hitting the water. But one of the days we did get to go in the sailboats with two of the coaches. They took us on a WILD RIDE in the strong wind. The waves crashed over the hull and everyone got soaking wet. It was a little frightening but ...oh... it was one of the most exciting things ever!
